## Chapter 1 by Bella

I never knew this would happen. I thought my first year in middle school would be normal. I wasn't expecting this to happen. I looked over the side of the top of the school. Every car was on fire and there was ice and fire everywhere. I thought I was just a normal 13 year old girl, now I know I was wrong. My hands were glowing blue, cold water was now in my body. Why me? Why would I get chosen to save our world? I'm not a popular girl. I'm not sure I can do this. "Are you ready Miss?" All the hairs on my neck stood up. I recognized that voice, he was the reason I am here and I am now like this because of him. "I can't do this!" I yelled. Power flooded through my hands. Ice was forming in my hands. I turn to see the man and over 100 monsters behind him. "You can't take me! This is my home! I'm not going to another planet to stop a man you are to afraid to stop!" I said that with more confidence than I thought. The man's eyes narrowed and he yelled something in a different language. All the sudden one of his monsters came up holding someone. I looked closely. My mouth fell open. I couldn't believe my eyes. "NO!" I screamed. A blast of blue and white light filled the sky and after my eyes got adjusted again I looked to were the man and his army was, they were gone. He was gone with he man. I fell to my knees. Anger filled my body.
